

Saved time is only the beginning.

Count review, exceptions and captured value.

01 / ACCOUNT FOR THE WORK

2,000 documents per month

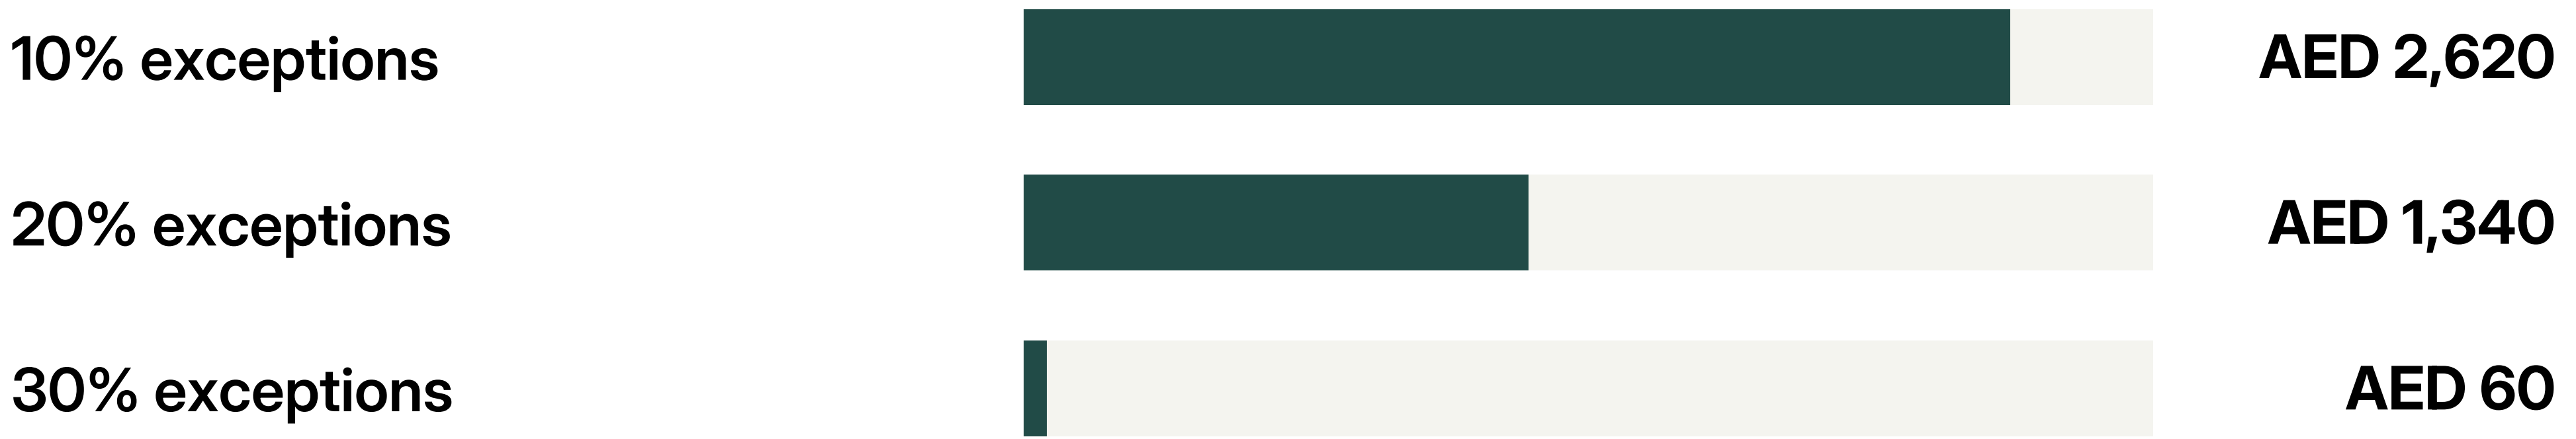

Baseline: 6 min/document. Assisted: 2 min for every document, plus 8 extra min for the 20% needing exception handling.

02 / TURN CAPACITY INTO CAPTURED VALUE

80 h x AED 80 per hour	AED 6,400
Potential capacity value	
Assume 60% is usefully captured	AED 3,840
Captured economic benefit	
Subtract recurring cost	AED 2,500
Model, support and ownership costs	
AED 1,340	net economic benefit / month

03 / EXCEPTIONS CHANGE THE RESULT

All inputs are fictional. Same volume, handling times, hourly value, 60% capture and AED 2,500 recurring cost in every scenario. Capacity is not automatically cash saved.
